

# SWE19 WORKSHOP REHEARSAL

## SWE-D PROFESSIONAL DEVELOPMENT EVENT

**Time: October 2<sup>nd</sup>, 2019 6PM – 8PM**

**Location : 1 Energy Plaza, Detroit, MI 48226**

**Please RSVP to Han Han at [han-square@outlook.com](mailto:han-square@outlook.com)**

Can't go to the SWE19 national conference this year? We have two selected speakers that will present their sessions at Detroit for rehearsal purposes. Please join us to learn about what the two speakers will present at the national conference and give them some feedbacks!

### SESSION 1 6PM-7PM

#### IS THIS THING ON? THE SCIENCE BEHIND PUBLIC SPEAKING

**Sabrina Ridenour**

**Algorithm Design Development Engineer  
General Motors**

Have you ever lost your voice after presenting all day long? How can you make sure the person sitting in the back of the room can hear you? Why doesn't this microphone work? Your presentation is already fantastic, but you want to make sure your voice is truly heard by all in the room! Learn from engineer and soprano, Sabrina Ridenour, on how understanding the science of acoustics and anatomy can help improve your public speaking! This interactive session will cover topics such as the anatomy of the voice, how to speak effectively, room acoustics, amplification technology, and vocal health as well as give you some vocal exercises to practice at home for your next speaking gig.

### SESSION 2 7PM-7:30PM

#### STRATEGIC EARLY CAREER PLANNING FOR ACCELERATED RESPONSIBILITY

**Samantha Kallman**

**Product Engineer  
Fiat Chrysler Automobiles**

Jumpstart your career. Learn about the trials and triumphs of rotating through an organization early in your career to accelerate the readiness and progression throughout the corporation. Learn how a young professional completed seven rotations within 20 months to prepare her for three new product launches. Expect to be able to take away tips that will initiate, build, and expand your career as you journey throughout a rotation program to be successful the years after.
